Course Description

Course Title: EUROPE AND THE DEVELOPING WORLD

Course Listing: International Studies 620 Sec. 001

Catalog Title: Topics in International Studies

Dates: June 20 – June 24, 2011

Description: K-12 Teacher Workshop

Elementary, Middle and High School teachers: earn one graduate credit for this one-week course which will look at the issues related to global development, health and aid with emphasis placed on European involvement in both historical and contemporary contexts.

Workshop participants will be given time during the workshop to discuss curriculum development ideas, and are expected to evaluate the best ways in which the themes of the workshop can be integrated into classroom instruction. The aim of the Workshop is for participants specifically to be able to develop curriculum units on aspects of recent European history, current regional issues, and more generally to promote and develop the internationalization of K-12 education.

Credit:

Participants taking the workshop for credit will be expected to submit a lesson plan, curricular unit or outline incorporating information from the workshop.
